The Amano PIX-3000x is a multi-purpose time recorder designed to handle all of your essential time recording needs. The PIX3000 is THE most versatile and feature-enabled electronic time clock available. If you are looking for the best, the PIX3000 has no equal.

As a time clock, the PIX-3000 prints the time and date on card or job tickets for calculating payroll or costing jobs. The same unit can also be configured to append comments (i.e. PAID, SENT, etc) to the time and date, making it an ideal choice for stamping important documents. If your applications requires the unique identification of documents, the Amano PIX3000x can even be set to operate as a numbering machine, printing up to six-digits numbers that advance based on your settings.

### Product Specifications

Product Height: 6.90 inches
