The screenshots show the software's interface. The top window is 'Configure Employee' for 'Washington, Carol', displaying a list of employees and a timecard table. The timecard table has columns for Date, Day, Cat, Start, Stop, Department, Reg, OT1, OT2, OT3, Unpaid, and Dollar. Below the table are buttons for 'Auto processing', 'Show Schedule', 'Forecasting', and 'Pay Periods back'. The bottom window is 'Reports and Listings Selection', showing a list of report options like 'Payroll', 'Attendance', 'Exceptions', etc., with radio buttons for 'Ranges' and 'Individuals'.

TA100 PRO is a simple to use yet powerful time and attendance solution that allows you to automate your company's timekeeping and attendance tracking. TA100 PRO completely eliminates paper timesheets, which are the root of most payroll nightmares!

Employees enter data at an electronic data terminal using magnetic stripe, bar code or biometric technology. Optional PC entry is available. The TA100 PRO software collects these transactions and your pay rules are applied automatically, consistently and impartially.

The TA100 PRO's powerful reporting system provides you with the tools to better manage your labor force. TA100 PRO's reports help you avoid unauthorized overtime, track employee status, track benefit administration, control departmental costs, monitor staffing, perform job costing, and much more.

The automated time clock polling and report generation capability allows you to define a processing schedule. TA100 PRO will poll the time clocks, process reports and even email them to supervisors automatically without operator intervention. The optional Benefit Accrual Module allows you to define benefit accrual calculations that automatically update your employee's accrual balances.
